Hi Rick - I'm not sure if this is helpful or not, however here is the email response from South Dakota. They added the same June 30th cutoff date. There's a meeting scheduled for Monday for everyone to discuss their response.

I went through the Section 18 workplans that Tawanda maintains and I wasn't able to find anything. I also double checked the database and the last activity I also saw was for chlorothalonil on sugar beets in 2017.

Thanks Bo. One quick question on the section 18s: Have we issued any decisions on North Dakota section 18s during the past 6 months? I checked the online section 18 database, and the last activity I saw was for their request for chlorothalonil on sugar beets in 2017.

Hi Rick -

We don't have any pending Section 18s for North Dakota, however we have three dicamba SLNs. I've been contacting all of the states that have been submitting dicamba SLNs and asking for more information. Attached is the email I sent to North Dakota, which was sent yesterday. They didn't respond.

Is there anything you need for me to do at this point?
Bo

Good Morning Bo,
Please see request from Rick.
Donna

Can I get the status of all pending section 18s and 24c's? Have we identified any issues with any of these actions and, if so, what have we communicated to ND Dept. of Ag? I need this information as soon as possible this morning. Sorry for the fire drill.
